ISRIB A15

Most popular

ULTRA POTENT ANALOG

Ultra-potent ISRIB analogue with enhanced bioavailability. Targets eIF2B.

From \$60

[View details →](#)

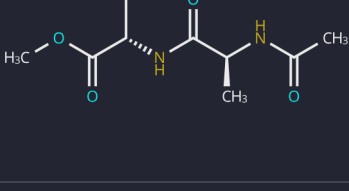

ISRIB

ORIGINAL MOLECULE

The foundational ISRIB molecule discovered at UCSF. Selectively targets the ISR pathway via eIF2B modulation.

From \$27

[View details →](#)

ZZL-7

FAST-ONSET RESEARCH COMPOUND

Rapid-acting research compound that disrupts the SERT–nNOS interaction.

From \$50

[View details →](#)

FULL CATALOG

Catalog at a glance

COMPOUND	RESEARCH CLASS	PURITY	FORMAT	FROM
ISRIB A15	Ultra potent analog · eIF2B	≥98% HPLC	Powder / caps	\$60
ISRIB	Original molecule · ISR	≥98% HPLC	Powder / caps	\$27
ZZL-7	Fast-onset · SERT–nNOS	≥98% HPLC	Powder	\$50
MPEP Oxalate	mGluR5 NAM	≥98% HPLC	Powder	\$60
Bromantane	Dopaminergic actoprotector	≥98% HPLC	Powder	\$40
N-Acetyl-Bromantane	Acylated actoprotector	≥98% HPLC	Powder	\$40

IN-HOUSE SYNTHESIS

Real chemist. Own lab. Verified purity.

ISRIB Shop is run by a synthetic chemist with a background in medicinal chemistry. Every compound is synthesized in our own lab, not sourced from a bulk supplier and repackaged. Identity and purity are confirmed by ¹H/¹³C NMR before any batch ships.

This is the difference between a lab operation and a white-label vendor: you get the actual compound, characterized, documented, and shipped by the person who made it.

✓ In-house synthesis — not resold bulk material

✓ NMR spectra available on request (per batch)

✓ Certificate of Analysis with every order

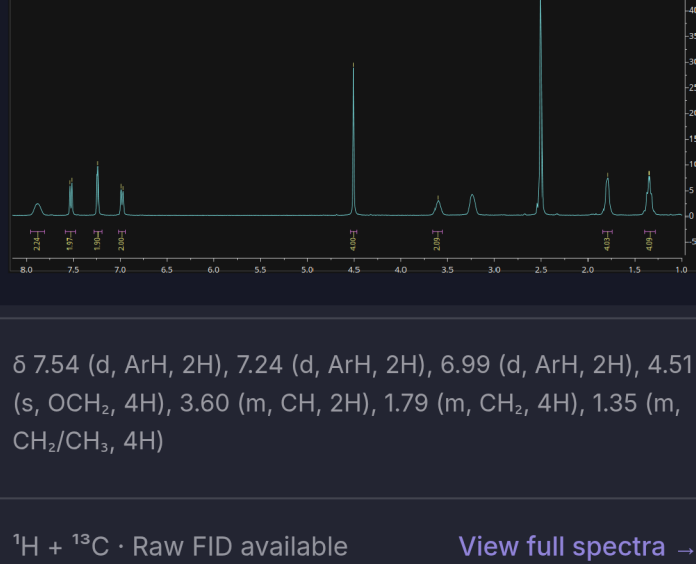

✓ Worldwide discreet shipping, 50+ countries

✓ Direct support from the synthesis team

¹H NMR · ISRIB A15

400 MHz · DMSO-d₆ · Batch 2

≥98% HPLC

δ 7.54 (d, ArH, 2H), 7.24 (d, ArH, 2H), 6.99 (d, ArH, 2H), 4.51 (s, OCH₂, 4H), 3.60 (m, CH, 2H), 1.79 (m, CH₂, 4H), 1.35 (m, CH₂/CH, 4H)

¹H + ¹³C · Raw FID available

STANDARDS

Why researchers trust us

Shipped worldwide

Delivered to 50+ countries since 2020. Average delivery 7–12 business days. Every order ships with tracking.

Full documentation

Every order includes a batch-specific Certificate of Analysis. ¹H and ¹³C NMR spectra available on request. Raw FID data downloadable.

Independent QC

NMR verification performed by an independent third-party spectroscopist — not self-reported. Externally confirmed purity on every batch.

PROCESS

How to order

STEP 1

Choose product

Browse our catalog and select the compound and quantity you need.

STEP 2

Add to cart

Select your desired amount and add products to your cart for instant checkout.

STEP 3

Pay & ship

Choose from Bitcoin, USDT, Wise, or SWIFT. Order confirmed within 24h, shipped discreetly with tracking.

ANSWERS

Frequently asked questions

What is ISRIB A15?

A next-gen ISRIB analogue with improved bioavailability & potency.

How do I place an order?

Place items in cart and proceed to checkout. Simple and fast.

What payment methods do you accept?

Crypto, Wise, SEPA/SWIFT, USDT, and other secure options.

Do you ship internationally?

Yes, to 50+ countries with discreet packaging.

Is there a Certificate of Analysis?

Yes, provided with every order.

What purity levels do you guarantee?

All compounds are ≥98% purity verified by independent labs.

How long does shipping take?

5–15 business days depending on destination country.

Can I get custom quantities?

Yes, contact us for custom synthesis and bulk orders.

ISRIB.shop

Research compounds for scientific use. Quality-verified, COA per batch, worldwide shipping.
